CULTURED STONE - THE ULTIMATE INTERIOR WALL FEATURE NOW AVAILABLE IN NSW

Austech External Building Products has been appointed the exclusive distributor for Cultured Stone — the world's leading stone veneer.

Cultured Stone stacked stone is an exact replica of natural stones, ideal for interior feature walls, exterior feature walls, as a landscaping element or as an innovative option to wall cladding.

Cultured Stone stacked stone adds olde world opulence to any area of the home including fireplaces and chimneys, and creates a stunning feature wall in entries.

"Austech is very proud to be taking on such a prestigious product," said Tony Curran, General Manager of Austech External Building Products.

"Cultured Stone is a unique, high quality product that not only beautifies a new construction or renovation, but it has also been shown to increase the perceived value of a home," he said.
