FOAMULAR SELECTED AS RENDER SUBSTRATE BY SUN CITY HOMES

Austech External Building Products Queensland has recently supplied Sun City Homes with Foamular Extruded Polystyrene to be used as a substrate for the external render finish of their just completed Surf Lifesavers Art Union Prize Home at Pelican Waters on the Sunshine Coast.

Sun City Homes Building Manager Benjamin Lebster said "they build 4 homes a year for the Lifesavers and Foamular was chosen for it's excellent thermal values, ease of installation and it's water resistant properties".
