## **RENDERFIX – THE SIMPLE SOLUTION FOR DAMAGED RENDER WALLS OR MOULDINGS**

Renderfix is a ready mixed, water based acrylic patching compound designed for smaller jobs – patching holes, chips, cracks, joints in concrete, painted rendered walls, foam walling systems and mouldings

Kevin Young from Young & Bracey Pty Ltd says “Renderfix was a treat to use, after a ladder bumped and damaged a wall on our most recent project at Kellyville and dried hard in about 10 mins”

Renderfix is suitable for both internal and external use.
